

The North Central Climate Adaptation Science Center (NC CASC) is excited to announce the launch of a new webinar series that will highlight ongoing research from the seven state NC CASC network, as well as feature topics of critical importance to natural resource managers and other stakeholders within the NC CASC region. The NC CASC connects researchers, managers, and practitioners to science, success stories, and solutions for natural and cultural resource management and adaptation in a changing climate.

Webinars will be held bi-monthly on the second Thursday of the month, from 11am-12pm MT, beginning July 9th and through the end of 2020. Beginning January 14, 2021, webinars will be held monthly on the second Thursday of the month, from 11am-12pm MT. Information on how to register and future webinar topics will be announced soon.

Our first webinar will take place on July 9 at 11am MDT. Dr. Kimberley Davis and Dr. Philip Higuera from the University of Montana will share their ongoing research on post-fire tree regeneration in a changing climate. We look forward to seeing you there!

Future webinar dates through 2021 (all times 11am-12pm mountain time):

September 10, 2020

November 12th, 2020

January 14th, 2021

February 11th, 2021

March 11th, 2021

April 8, 2021

May 13, 2021

June 10, 2021

July 8, 2021

August 12, 2021

September 9, 2021

October 14, 2021

November 11, 2021

December 9, 2021
