Advisory Committee Meeting

Dec 12, 2025

***Overarching Meeting Purpose**: NC CASC Advisory Committee (AC) meetings provide space for sharing and learning about natural and cultural resource management challenges, climate adaptation strategies, and climate-related activities, workshops & trainings. AC members' input is used to shape regional science priorities, NC CASC proposal solicitations, and capacity-building initiatives. This input helps us address AC members' climate adaptation challenges with targeted scientific information and products.*

Agenda topics:

- Presentation on the CU-Boulder-led Rapid Climate Assessment Program
- General updates from the North Central and National CASCs
- Climate adaptation science needs for potential FY26 research projects
- Presentation on new initiative to evaluate the effectiveness of climate adaptation actions
